Abstract

This descriptive research focuses on the JBLFMU-Molo, Inc. BS Cruise Ship Management students' reasons for drinking alcoholic beverages. Sources of data were students of BS Cruise Ship Management identified as alcoholic beverages drinkers. Descriptive statistics used were ranks, means, and standard deviations. Inferential statistics used was Spearman rho set at .05 alpha level. The study found out that the top three reasons of students for drinking alcoholic beverages were for group acceptance; relaxation, rest, fun and enjoyment; and experimenting then becoming used to alcoholic beverages. There are no significant relationships in the students' reasons for drinking
