Abstract

The purpose of this descriptive study was to determine the instructors approach towards the online learning system and was conducted during the first semester of Academic Year 2020-2021. The data were obtained through the use of a checklist made by the researchers and was validated by experts in the field. This research focused on the discussion of the instructor approach towards online learning system in such way learners still experience high quality education even in the midst of this Coronavirus 2019 Pandemic. The independent variables of this study were sex, age and number of years of teaching while the dependent variables Easing the New Normal: Instructors Approach Towards Online Learning System at John B. Lacson Foundation Maritime University-Molo Inc. The results revealed that Zoom was the most used platforms to reach students. It was also found out that most of the instructors "gave the students their topic/modules ahead of time for them to check and study in advance" and "gave activities and quizzes to test their learnings".
