Table of Contents

Preface	ix
----------------------	----

1 Sequences and Series

Lesson 1-1 Arithmetic Sequences and Series	2
Lesson 1-2 Geometric Sequences and Series	15
Lesson 1-3 Other Types of Sequences	28
Chapter Assessment	39

2 Polynomial Functions

Lesson 2-1 General Form of a Polynomial Function	44
Lesson 2-2 The Roots of Polynomial Functions	59
Lesson 2-3 Graphs of Polynomial Functions	78
Chapter Assessment	93

CHAPTER
3

Circles

Lesson 3-1 Central Angles and Inscribed Angles	98
Lesson 3-2 Chords, Secants, and Tangents to a Circle	119
Chapter Assessment	137

CHAPTER
4

Coordinate Geometry

Lesson 4-1 The Distance Formula and the Midpoint Formula	144
Lesson 4-2 Coordinate Proofs	159
Lesson 4-3 Equations of Circles	172
Chapter Assessment	186

CHAPTER
5

Principles of Counting and Probability of Events

Lesson 5-1 Principles of Counting	192
Lesson 5-2 Probability of Events	209
Chapter Assessment	228

CHAPTER 6

Measures of Position of Data

Lesson 6-1 Percentiles and Deciles	234
Lesson 6-2 Quartiles and Box-and-Whisker Plots.....	248
Chapter Assessment	263

About the Authors

Each lesson is composed of the following components:

- Prate and Learn** provides discussions of the topics using illustrations, examples with step-by-step solutions, and key concepts. This component has the following subcomponents:
 - Key Concept** highlights important terms, laws, formulas, properties, postulates, or theorems that the students should look into to better understand the lesson.
 - Fun Fact** gives interesting information or trivia about a specific term or concept mentioned in the lesson.
- Apply** provides assessment items in varying levels of difficulty to allow the students to master and apply what they have learned. This component is divided into three parts:
 - Concept and Skill** is composed of knowledge-based items about the topics discussed.
 - Application** is composed of problem-solving items that focus on real-life applications of the topics.
 - Critical Thinking** is composed of items that go beyond the topics discussed to enhance the students' critical thinking skills.

Each chapter concludes with a **Chapter Assessment** to measure the applied knowledge and skills of the students.
