## FOREWORD

**E**ducation in the Philippines is an ongoing effort towards further developing the potential of individuals, especially youth of today's generation in a holistic and integrated manner so as to produce individuals who are intellectually, spiritually, emotionally and physically balanced to become productive members of the community, based on firm belief in and devotion to God and peacefully adhering to the tenets of the Philippine Constitution.

The enactment of Republic Act 9163, otherwise known as the National Service Training Program is a confirmation of one of the provisions in our Constitution, manifesting the State's primordial concern on the vital role of the youth in nation building. Through NSTP, the students, the youth of today will have a first hand experience of being closer to the community and be living witnesses of the dramas in real life situations and problems confronting different barangays.

It is my distinct pleasure to convey my profound felicitations to the authors of this book. The combined efforts in crafting this book is a response to the clamor of the higher educational institutions to have an invaluable tool, a timely teaching and learning material for the implementation of NSTP programs. Instituted in this book are learning essentials and competencies in the emerging topics or areas of concern covered in the multifarious dimensions of NSTP.

topics on Disaster Risk Reduction and Management Awareness and Other National Security Concerns which fall under the Minimum Standard for Common Modules of the three components: Civil Welfare Training Service, Literacy Training Service and Reserve Officers' Training Corps..
