ISBN: 978-971-98-1288-3

Table of Contents

LIST OF ACTIVITIES, FIGURES, AND TABLES	vii
-----------------------------------------------	-----

PREFACE	xiii
---------------	------

CHAPTER I Formation of Elements Found in the Universe

LESSON 1.1 The Big Bang Theory	3
--------------------------------------	---

LESSON 1.2 Formation of Heavier Elements in the Evolution of the Universe	11
---------------------------------------------------------------------------------	----

Chapter Review Test	15
---------------------------	----

CHAPTER II The Idea of the Atom

LESSON 2.1 Models of the Atom	18
-------------------------------------	----

LESSON 2.2 Structure of the Atom	27
----------------------------------------	----

Chapter Review Test	34
---------------------------	----

CHAPTER III Properties of Matter and Chemical Structure

LESSON 3.1 Polar and Nonpolar Molecules	38
-----------------------------------------------	----

LESSON 3.2 General Types of Intermolecular Forces	46
---------------------------------------------------------	----

LESSON 3.3 Properties of Materials	50
------------------------------------------	----

Chapter Review Test	60
---------------------------	----

CHAPTER IV Chemical Changes

LESSON 4.1 Rate of Reaction	64
-----------------------------------	----

LESSON 4.2 Chemical Change	70
----------------------------------	----

Chapter Review Test	85
---------------------------	----

CHAPTER V Household and Personal Care Products

LESSON 5.1 Cleaning Materials for House and Personal Care	88
-----------------------------------------------------------------	----

LESSON 5.2 Personal Care Products	91
-----------------------------------------	----

Chapter Review Test	95
---------------------------	----

CHAPTER VI Center of the Universe

LESSON 6.1	The Greeks' Three Types of Terrestrial Motion.....	99
LESSON 6.2	Models of Astronomical Phenomena.....	103
	Chapter Review Test	110

CHAPTER VII The Laws of Physics Are Universal

LESSON 7.1	Aristotelian Versus Galilean Views of Motion.....	112
LESSON 7.2	All About Motion	118
LESSON 7.3	Newton's Laws of Motion	129
LESSON 7.4	Newton's Law of Universal Gravitation.....	134
LESSON 7.5	Mass, Momentum, and Energy Conservation	140
	Chapter Review Test	149

CHAPTER VIII Light: A Wave and a Particle

LESSON 8.1	Reflection and Refraction of Light.....	152
LESSON 8.2	The Photon Theory of Light	161
LESSON 8.3	Electrons as Waves.....	169
	Chapter Review Test	179

CHAPTER IX Physics Helps Us Understand the Cosmos

LESSON 9.1	Special Theory of Relativity.....	182
LESSON 9.2	We Live in an Expanding Universe.....	188
	Chapter Review Test	192

List of Activities, Figures, and Tables

List of Activities

Activity 1:	An Expanding Universe	3
Activity 2:	Finding Indirect Evidence in Solving a Problem.....	18
Activity 3:	Model of Atom	25
Activity 4:	A Simulation of Rutherford's Experiment.....	27
Activity 5:	Microwave Cooking and Water Molecules	38
Activity 6:	Properties of Ionic and Covalent Compounds.....	41
Activity 7:	Comparison Between Natural and Synthetic Polymers	50
Activity 8:	Factors that Affect Rate of a Reaction	67
Activity 9:	Limiting Reactant in a Chemical Reaction	77
Activity 10:	How to Make Soap	88
Activity 11:	Oil and Water Do Not Mix	91
Activity 12:	A Thought Experiment on Freely Falling Bodies	114
Activity 13:	Reaction Time.....	120
Activity 14:	Finding the Average Speed of an Object.....	123
Activity 15:	A Body Moving in a Circle.....	134
Activity 16:	Making a Microbalance	141
Activity 17:	Behavior of Light in Different Media.....	152
Activity 18:	Thought Experiment on Photoelectric Effect.....	165
Activity 19:	Viewing Light through a Diffraction Grating.....	172

List of Figures

FIGURE 1-1.	Stephen Hawking	3
FIGURE 1-2.	Hubble's telescope.....	6
FIGURE 1-3.	Milky Way Galaxy	6

FIGURE 1-4.	Stars	7
FIGURE 1-5.	Formation of the universe according to the Big Bang theory	8
FIGURE 1-6.	Our vast universe	11
FIGURE 2-1.	Symbols used in alchemy for some elements	20
FIGURE 2-2.	Robert Boyle	21
FIGURE 2-3.	John Dalton	21
FIGURE 2-4.	Thomson's plum pudding model of the atom	23
FIGURE 2-5.	Rutherford's experiment on the gold foil bombarded with alpha particles	23
FIGURE 2-6.	Rutherford's model of the atom	23
FIGURE 2-7.	Bohr's model of the atom	24
FIGURE 2-8.	Illustrations of a (a) helium nucleus and a (b) carbon nucleus	28
FIGURE 2-9.	Isotopes of hydrogen	31
FIGURE 3-1.	Geometry of H_2	41
FIGURE 3-2.	Geometry of HF	41
FIGURE 3-3.	Structure of an ionic compound	41
FIGURE 3-4.	Linear or bent geometrical shapes. Examples are SO_2 and NO_2	44
FIGURE 3-5.	Possible shapes for AB_3 molecules	44
FIGURE 3-6.	Dipole-dipole attraction between HCl	47
FIGURE 3-7.	Diamond	48
FIGURE 3-8.	Medical implants and prosthetics	54
FIGURE 3-9.	Sports equipment	54
FIGURE 3-10.	Electronic devices	55
FIGURE 3-11.	Pipes used in construction	55
FIGURE 3-12.	Plastic materials	56
FIGURE 4-1.	(a) Lower concentration and (b) higher concentration	65
FIGURE 4-2.	Molecules move faster when temperature becomes higher	65
FIGURE 4-3.	In a solid reactant, increasing the surface area leads to more effective collisions	66
FIGURE 4-4.	Properly oriented molecules lead to more effective collisions	66

FIGURE 4-5.	The reaction between methane gas and oxygen that produces carbon dioxide, water, and heat energy	72
FIGURE 4-6.	Preparation of mini roasts	76
FIGURE 6-1.	Ptolemaic model of the universe	104
FIGURE 6-2.	Copernican model of the universe	105
FIGURE 6-3.	Galileo making observations of the heavenly bodies	106
FIGURE 6-4.	The paths of the planets are ellipses with the Sun at one focus: $F_1P + F_2P$ are the same for all points on the curve	107
FIGURE 6-5.	A line from the Sun to the moving planet sweeps over equal areas at equal time intervals	107
FIGURE 7-1.	One of Galileo's thought experiments	113
FIGURE 7-2.	Galileo's experiment on freely falling objects	114
FIGURE 7-3.	Galileo dropping a small iron ball and a large cannon ball	115
FIGURE 7-4.	A strobe photograph of two balls of different masses falling exactly at the same rate	115
FIGURE 7-5.	Coin and feather experiment	116
FIGURE 7-6.	Motion of a ball thrown upwards with a speed of 30 m/s	116
FIGURE 7-7.	A speedometer gives readings of instantaneous speed	119
FIGURE 7-8.	Distance-time graphs of four buses in motion	122
FIGURE 7-9.	Velocity-time graphs of the motion of four buses	124
FIGURE 7-10.	Safety gadgets installed in cars	130
FIGURE 7-11.	A torsion balance apparatus used by Henry Cavendish for determining small gravitational forces	136
FIGURE 7-12.	Johannes Kepler	137
FIGURE 7-13.	Tycho Brahe	137
FIGURE 7-14.	Sir Isaac Newton	138
FIGURE 7-15.	The bag of rice has a mass of 1 kg and weighs about 10 N	140
FIGURE 7-16.	The greater the mass, the greater the inertia	142
FIGURE 8-1.	Reflection on a plane mirror	153

FIGURE 8-2.	Reflection of parallel rays on a smooth surface.....	154
FIGURE 8-3.	Diffuse reflection of parallel rays	154
FIGURE 8-4.	Light crosses the boundary between two media at different angles.	154
FIGURE 8-5.	Light slows down as it travels from air to water.	155
FIGURE 8-6.	A ball bouncing off a wall	157
FIGURE 8-7.	A man with his shadow.....	158
FIGURE 8-8.	Prism dispersing light.....	158
FIGURE 8-9.	Waves are carriers of energy.	159
FIGURE 8-10.	Max Planck	162
FIGURE 8-11.	Visible light spectrum	162
FIGURE 8-12.	Polarized light by scattering.....	170
FIGURE 8-13.	Young's double-slit experiment.....	170
FIGURE 8-14.	(a) constructive interference and (b) destructive interference.....	171
FIGURE 8-15.	A rainbow of colors is produced when light is shone on (a) a slick of oil, (b) soap bubbles, and (c) a compact disc.....	171
FIGURE 8-16.	Diffraction of light waves.....	171
FIGURE 8-17.	Reflection from convex and concave surfaces	173
FIGURE 8-18.	Mirage	173
FIGURE 8-19.	Red glass	173
FIGURE 8-20.	Dresses of different colors.....	173
FIGURE 8-21.	A red and orange sunset	174
FIGURE 8-22.	(a) cumulus clouds, (b) cirrus clouds, and (c) stratus clouds.....	174
FIGURE 8-23.	Sundog	174
FIGURE 8-24.	Secondary rainbow seen above the primary rainbow	175
FIGURE 8-25.	Benjamin Franklin	175
FIGURE 8-26.	Charles Coulomb	175
FIGURE 8-27.	Jean Baptiste Biot and Felix Savart.....	176
FIGURE 8-28.	Michael Faraday	176
FIGURE 8-29.	James Clerk Maxwell	176
FIGURE 8-30.	Conceptual schematic of Hertz's apparatus to transmit and detect electromagnetic waves.....	176

FIGURE 9-1.	The observer on the boat sees the ball perpendicular to the deck. The observer on the beach sees the path of the ball as a curved line.	183
FIGURE 9-2.	Gravity as a warping structure of space-time	186
FIGURE 9-3.	An expanding universe.....	189
FIGURE 9-4.	A view of Pluto, picture by New Horizons.....	190

List of Tables

TABLE 3-1.	Guidelines in Distinguishing Among the Three Types of Bonds	40
TABLE 3-2.	Types of Proteins.....	57
