Abstract

This research paper is entitled, "Usage of social media to students of JBLFMU-Molo". The researchers had decided to study this because Social media is getting more popular among teenagers and students are curious of the effects of Social media to them. It only covered the whole Senior High School students of JBLFMU-Molo which totaled in 100 respondents. Based on the student answers, Social Media affects their studies mostly. As a matter of fact, they found it difficult because they spend their spare time in use for entertainment than educational purposes. Moreover, the students got affected in a positive way like Social media have given them some facts, trivia, and information in the society and in a negative way by distracting their focus and being a source of addiction. The researchers concluded that social media sites can affect the academic excellence of the student
